New Leaders stepping up

Look around! We have family on the way up. Travelers growing into shift managers , shift leads stepping up as site managers. Site managers training and guiding the next generation. Congratulate a teammate you see stepping up.

7 Day per diem is here. Make sure you don't miss out.

The great news left the manager's meeting and made it all the way to your remodel. TAB travelers across the country are raving about the impact of the new 7 day per diem. .

We just want to make sure you make the correct decisions to put yourself in the best position to be successful . We want each TAB employee to take full advantage of the opportunities and benefits that are available.

Make sure you work your full shift on either side of “your weekend”. Make sure you work at least 4 of your 5 scheduled shifts. Remember you make up our company, we need you present and performing to be our best.

1 Team 1 Goal 1 Family

Another space saving packing hack that I swear by? Packing cubes! I truthfully thought these were a scam until I tried them out for myself.

They not only compress your items to give you additional space, but they also help keep you organized—I use a small one for socks and underwear, a medium-sized one for tops, another medium-sized one for [comfortable walking shoes](#) and [sneakers](#), and a large one for [jeans](#), pants, and dresses.

Travel for the job, explore for the memories.

Travel takes us out of our comfort zones and inspires us to see, taste and try new things. It constantly challenges us, not only to adapt to and explore new

surroundings, but also to engage with different people, to embrace adventures as they come and to share new and meaningful experiences with friends and loved ones.

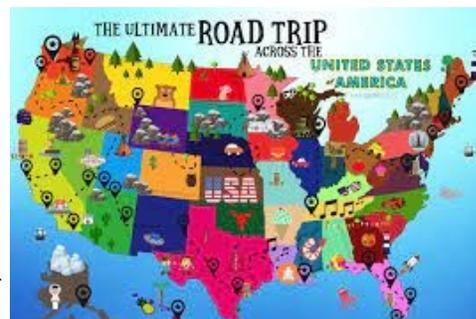

As you travel and discover these newly found worlds, take a moment to reflect not

only on the differences that you observe in their lifestyle and behavior but on the things that unite us. This practice will not only broaden your mind but will allow your authentic self to surface.

Another reason why people love to travel: it helps open your mind. You realize that there's no one way to live life. Meeting people from other places will show you that your world view isn't the same as everyone else's.

Conquering fresh territory is exhilarating - and one more reason why people love to travel. Humans crave new experiences and travel lets us tap into that craving. A trip is the perfect time to do something different and exciting, especially something you

can't do at home. The thrill starts the minute you land in a new place. You'll have lots of fun. You'll revel in the rush you get from your exploits. You'll feel a sense of accomplishment. And you'll return home with the best souvenir of all: a memory of

your incredible adventure.
