Manager's Meeting a Success!

Everyone on the same page

The annual TAB Manager's meeting brought in site, shift managers and future leaders from the field all to Gainesville, GA. We left energized and unified.

Communication is Key

Whether it is written or verbal or both, communication is the key to our success.

Q: How do I motivate my team?

A: Treating everyone with respect and humanity, make personal relationships in a work setting.

Q: What is the hardest part of managing?

A: Looking at yourself critically and making changes to reach others.

Create a Positive Environment

People don't quit their jobs, they quit their managers.

Travel Compensation is Changing

Kudos to our C.O.O. Andrew Rotunno; the field spoke and he listened. After weighing needs and looking at things from an employee centric view, he has approved a new compensation package for our travelers and

managers. There are new 7 day per diems and travel pay opportunities. The cost differences of states and coasts has been taken into consideration to aid you as well. If you have questions reach out to our office, we

will be happy to help go over it. We are super excited about the new direction and opportunities at TAB that 2022 is providing.

Eating on the road, just because your traveling doesn't mean you eat out!

Getting groceries will save you money and have you eating more healthy

will save you a ton of money. People spend and average of \$45 to \$65 a day eating

There is a common misconception with those who travel , because you are not "home," you must eat out. This could not be further from the truth. Getting groceries for the week or every couple days while staying in hotels or air b&b's will pay huge dividends for you. First it

their meals out, that's an average of \$315 to \$455 per week conservatively. This number can easily come down to \$100 per week or less when buying groceries to feed yourself for the week. That \$215 to \$355 difference per week in your pocket . That's up to \$1420 per month you are wasting!

You will eat much better and feel better. Takeout and fast food (especially when affordable) is not very good for you; high in fat, sodium and sugar. It is designed to be made quickly and in mass amounts. Loading your body up with contents that slow you down. Buying your food at the grocery store will give you an opportunity to get the nutrients you need. This in turn will give you the lasting energy and health you need to be productive and present for

your entire project.
